

SEED, FAITH, AND PATIENCE

Why Results Stop When People Quit Too Early

Core Truth

Faith starts the process, but patience is what keeps it working. Most harvest is lost because people stop cooperating with the process before it finishes.

Key Scriptures

- Mark 4:26–29
 - Hebrews 6:12
 - Galatians 6:9
-

THE PRINCIPLE (WHAT IS TRUE)

God designed seedtime and harvest to work in stages. After seed is planted, growth happens whether the farmer understands it or not. The system works automatically once the seed is in the ground.

Faith does not force growth. Faith simply **plants the seed correctly**. After that, the seed grows because God designed it to.

Patience is not waiting on God to act. God has already acted by establishing the system. Patience is **the decision not to undo what faith has already started**.

When people get impatient, they don't lose harvest because God changes His mind. They lose harvest because they:

- Stop believing what they originally believed
- Stop speaking what they originally spoke
- Stop acting the way they originally acted

That interruption is what stops results.

THE FORMULA (HOW IT WORKS EVERY TIME)

Plant → Don't Interfere → Stay Consistent → Harvest

Plant

You plant the seed when you believe the Word, speak it, and act on it.

Don't Interfere

Once planted, the worst thing you can do is dig it up with doubt, complaints, or contradictory words.

Stay Consistent

Consistency means:

- Saying the same thing after planting
- Acting the same way when nothing looks different
- Refusing to re-evaluate based on feelings

Harvest

Harvest does not come because you waited long enough. It comes because you **didn't interrupt the process**.

THE PROMISE (WHAT GOD GUARANTEES)

God guarantees that those who combine faith with patience will receive what was promised.

The promise is not fragile. It does not disappear because of time. It only stops when cooperation stops.

If the seed stays in the ground, harvest is inevitable.

Application (VERY PRACTICAL)

Think of one thing you believed God for but later stopped expecting.

Ask yourself honestly:

- Did I change what I was saying?
- Did I stop acting on it?
- Did I start talking about “waiting on God”?

That’s where the process was interrupted.
